

How do I add my Barking Buddy?

To add your barking Buddy, just sign up, then Contact the Barking Webmaster to enable your account for uploading. Very soon after that you'll receive an email letting you know you have access to upload your Barking Buddies!

Why do we need the extra step of contacting us to enable your account?

A: So that we can expect some photos from you and we can check them out to make sure they are suitable for our site and most importantly fun or cute pictures!
